SKILLS

Frontend Development

Ui/Ux

Machine Learning/AI

Blockchain

- Solidity
- Next.js
- C#
- Clarity
- Typescript
- Python
- Rust
- Django
- MathLab
- C++
- React
- Figma

EDUCATION

CHEMICAL ENGINEERING

FEDERAL UNIVERSITY, OTUOKE

2017-2023

process engineering and acquaintance with chemical engineering stimulation software such as aspen hysys, math lab and solidworks.

ENTREPRENEURSHIP

QUEENS UNIVERSITY, CANADA

2024- Present

Tech entrepreneurship and gained skills such as customer discover, high performance team, product management, and design thinking

PROJECTS

Counter - Decentralized Application (DApp)

PROFILE

I am Ockiya Cliff, a dedicated web and game developer with a strong focus on front-end development. I bring a passion for creating immersive and engaging gaming experiences, as well as visually appealing and user-friendly web interfaces. With experience in blockchain technology and machine learning/AI, I continuously seek to expand my skill set. Committed to continuous learning and innovation, I am eager to contribute my technical expertise and collaborative mindset to drive forward-thinking projects in the industry.

WORK EXPERIENCE

Freelance Web developer

Self-employed

2018-Present

- Developed and deployed over 20 web applications and games, receiving positive feedback from clients.
- Implemented machine learning models for data-driven applications, improving performance and user experience.
- Built and maintained client relationships, resulting in a 90% client retention rate.

Web Developer

Lomofy, NG.

2020-2023

- Collaborated with back-end developers to integrate APIs and enhance website functionality.
- Spearheaded a redesign project that resulted in a 40% increase in user satisfaction and a 15% increase in conversion rates.
- Conducted regular user testing and feedback sessions, leading to iterative improvements and a 20% reduction in user-reported issues.

Founder

Kanki studio

2022-2024

- Developed smart contracts and decentralized applications (DApps) using Ethereum and Solidity.
- Contributed to a blockchain-based project that improved transaction processing speed by 35%.
- Collaborated with cross-functional teams to design and implement secure and efficient blockchain solutions.
- Presented project progress and technical insights to stakeholders, enhancing communication and project alignment.

LEADERSHIP

Successfully led project teams on numerous occasions, fostering a collaborative and productive environment that consistently delivered projects on time and within budget. My leadership has resulted in a 30% increase in team efficiency and a 15% boost in overall project quality.
